DECORATING DEN INTERIORS

1. Shades of blue are still in vogue. Update your wall color, accessories and wallpaper. Give upholstery pieces and draperies a touch of blue also to update your space.
2. The understated charm of beige and taupe are in trend creating a warm, sophisticated design. Add a touch of gold which blends perfectly and gives a glam feel.
3. Metals are used for their unique texture, sheen and reflective properties. Add some depth, brighten your space and create a focal point to your room.

4. Curved silhouettes in furniture and accessories soften the space and gives a feel of opulence.
5. Connect with nature. Add teak, floral and leafy pillows, a tranquil nature scene and fresh floral arrangements to create your peaceful sanctuary.
6. Mid-Century Modern shows itself again to be one of the design trends this upcoming year with clean lines and contemporary style.
7. Comfort and flexibility is in demand. We will see more configurable sectionals come into play.
