

An Autumn-Filled Entry

BY CHRIS FRANCIN
VENICE GULF COAST LIVING MAGAZINE

When preparing for the upcoming holidays, there are a lot of decorative choices that can contribute to making our homes look festive. For the fall season, pumpkins always seem to find their way into our decorating scheme, inspiring many beautiful design ideas to set your home's exterior aglow. We have selected a few settings for you to peruse...

Ivory Fall ↵

Using white design elements is an elegant approach to creating a fall design for your entry. A wooden chair decorated with ivory-hued flowers and a collection of different-sized white pumpkins will create a stunning view for all to appreciate.

🍂 A Harvest Garland Celebration

Fall-style garland is always a good choice for creating an autumn feel to your décor. Placing it on the railing or around a door or window will add that extra special holiday touch. Add a few pumpkins and a welcome sign, and you're all set for your next fall gathering!

A Painted Autumn ↵

Want to add some not-so-traditional color to your fall decorating this year? Design your outdoor theme with the colors of paradise such as sky blue, tropical pink, lavender, or any other color you might want to use. Spray paint pumpkins and leaves for that oh-so-different look!

🍂 It's a Pumpkin Party!

If you are looking to create a holiday design that is very simple with a fun, fall ambiance, this is it! Simply place a row of pumpkins on the railing, and you have a party!
