

SHIMMERING SEASCAPE TABLE

Create a sparkling dining experience this holiday season. Transform your table from ordinary to extraordinary by following these simple steps.

- Drape the table with a white tablecloth.
- Add white napkins enhanced with gold or clear napkin rings.
- Set the table with 7- to 9-inch flat shells for serving plates, 4-inch shells for salad, dessert and butter dishes, crystal glasses, and gold- or white-handled flatware.
- Position a coral centerpiece adorned with starfish on the table.
- Surround the bottom of the centerpiece with larger shells.
- Lay white Christmas lights around the centerpiece.
- Place white tulle netting on top of the Christmas lights and clear or white beaded garland at the edge of the tulle to create the look of sea foam.
- Position several tea lights in votive holders on the table.
- Randomly sprinkle your treasures of white sea glass, shells, sand dollars, starfish, glass pebbles, and metallic sparkles on the table.
- Tuck a few white silk flowers into the beaded garland.
- Wrap an extension cord up the corner leg of the table to connect the lights.
